

CONFIDENTIAL

15 April 1986

MEMORANDUM FOR: OIT Group Chiefs

FROM: William F. Donnelly
Director of Information Technology

SUBJECT: Reassignment

Mr. Casey asked me to become the DDA during a short meeting with him on 11 April. The assignment was formally announced today at the DCI's morning meeting and is effective 21 April. Events move quickly!

As with my assignment to the Office of Communications, my assignment to the Office of Information Technology has been too short. We have just begun to fit the parts together in OIT.

I am pleased to have had the opportunity to work with each of you. We have created a new Office. We have charted a new direction. There are numerous challenges ahead. I'm certain that the talented employees who are the backbone of OIT will create further successes.

Thanks!

Please pass the above along to all of your employees.

William F. Donnelly
